

Looking for Automation equipment assembly and commissioning Engineer/Technician 自动化设备装配调试工程师/技术员,机电一体化工程师

submit your cv to: yamakmedical@gmail.com

The ability outstanding person has no education limit! 能力突出者可不考虑学历限制! Preferred Education: B.tech in Mechanical, Electrical, Industrial

Complete assembly, testing tasks according to 3 d drawings and related design requirement.按照 3D 图纸及相关设计要求完成组装, 调试任务

Complete pipeline layout according to electrical road map 根据电气路图完成气管排布

Familiar with all kinds of conventional sensor usage and debugging. 熟悉各类常规感应器使用及调试

Skilled operation of dispensing equipment, namely manipulator point adjustment function 熟练操作点胶设备即机械手点位调校功能.

Familiar with the principle of electrical control and logic of equipment operation. 熟悉电气控制原理及设备动作逻辑原理

Can independently complete the debugging of the whole machine equipment, can independently assemble and debug the automatic machine equipment, understand the control principle, and understand the electrical drawings

能独立完成整机设备调试, 能独立组装、调试自动机设备, 了解控制原理, 能看懂电气图纸

Experience in debugging and leading the entire line of equipment (ie, an automated production line combining multiple equipment) is preferred 有整线设备 (即多台设备组合的自动化生产线) 调试带队经验者优先

Proactive, motivated, subordinate to the company's work arrangement 积极主动, 有上进心, 服从公司的工作排配

Company provides free accommodation, salary negotiable 公司包住,工资面谈

要求 Requirement:

1. Age: under 40 years old, holding maintenance electrician certificate or high-voltage electrician certificate and other related documents, know how to review, read CAD or EPLAN electrical drawing, carry out basic point and action debugging, and diagnose general fault problems

年龄: 40 岁以下, 持有维修电工证或高压电工证等相关证件, 会看 CAD 或 EPLAN 电气制图, 进行基本的对点和动作调试, 诊断一般的故障问题点

2. At least 2-5 years working experience in installation and commissioning of automation equipment or non-standard equipment of automation company.2-5 年以上机械厂自动化设备或自动化公司非标设备的安装及调试工作经验, 能独立完成整机电气配线、安装、调试

3. Familiar with the working principle and use method of the sensor commonly used in electrical, have the experience of installation and debugging of automation equipment.熟悉电气常用的传感器工作原理和使用方法, 具备自动化设备安装, 调试工作经验。
